## **WIS 441 Tri-County Project lane closures for February 16 – February 20**

*Traffic restrictions on WIS 441 and US 10*

(Green Bay) The Wisconsin Department of Transportation (WisDOT) Northeast Region office in Green Bay is announcing WIS 441 Project lane restrictions for February 16 through February 20 in Winnebago, Outagamie and Calumet counties. Drivers should be aware of reduced speed limits and remember to use caution while traveling through any work zone. This does not include closures by local authorities for accidents or unusual incidents (such as weather).

### **US 41**

Drivers can expect daytime single lane closures on northbound and southbound US 41 on Tuesday.

### **Local Roads**

Lake Street between Towmen Road and Stroebe Road will have various full closures on weekdays beginning on Monday, February 23 between 7 a.m. to 5 p.m. for girder delivery and placement.

### **Utility work**

Utility work at the intersection of WIS 47/Appleton Road and Midway Road/County Road AP began on February 9 in Winnebago County. The utility work is expected to last approximately 10 weeks. The work is in preparation for the WIS 441 Tri-County Expansion Project at WIS 47 (Appleton Road) interchange later this year.

Traffic impacts for AT&T's utility construction include:

- A number of through lanes will be restricted and closed during various stages.
- Northbound right-turns from Appleton Road to Midway Road eastbound will be prohibited during various stages.
- Eastbound Midway Road will be closed to motorists approaching the Appleton Road/Midway Road intersection during various stages.

- Appleton Road north of the Appleton Road/Midway Intersection will be restricted to one lane during various stages.
- Eastbound Midway Road will be restricted to one lane approaching the Appleton Road/Midway Intersection during various stages.

Utility crews will have messaging boards alerting motorists to closures or turning restrictions. The first six weeks of the utility work will have the most impacts on local traffic.

**All lane restrictions and work operations are weather dependent and subject to change.**
